

PRIORITY 3 PROJECTS

Sidewalk segments with 30 to 40 points were considered Priority 3 projects. The Priority 3 Projects are anticipated to be completed after the completion of Priority 1 and 2 Projects. Due to the extended timeframe, sidewalk segments were not grouped into cohesive projects for Priority 3. Critical sidewalk segments are instead reported. Priority 3 projects should be revisited in the next Sidewalk Master Plan Update.

Priority 3 Projects map can be seen in greater detail in the Appendix.

PROJECT SUMMARY

The Priority 1 project list captures the public's three main priorities: sidewalks in the Downtown Overlay District, connectivity to Southwestern University and connectivity to Georgetown ISD facilities.

- 34% of funding is dedicated to Downtown Overlay District sidewalks
- 28% of funding is recommended within 1/4 mile of Southwestern University
- 26% of funding is recommended within 1/4 mile of Georgetown ISD facilities

Obstacles force pedestrians into the street.

Faded crosswalk markings reduces visibility of pedestrian crossings.
